

Texas Academic Performance Report for 2019-20

Arlington Classics Academy

in compliance with TEC Ch. 39 January 21, 2021

Texas Education Code Chapter 39 requires that Arlington Classics Academy's board of trustees publish an annual report that includes the Texas Academic Performance Report as prepared by the Texas Education Agency, campus performance objectives, a report of violent or criminal incidents, and information received under Texas Education Code §51.043(e) from the Texas Higher Education Coordinating Board.

Section 1- Texas Academic Performance Report

Section 1 provides the Texas Academic Performance Report (TAPR) as prepared by the Texas Education Agency for our district and each campus. Due to the length of the reports, they are attached as addendum A. These reports provide information concerning student body performance on the State of Texas Assessments of Academic Readiness (STAAR) as well as information on student enrollment, class size, and financial expenditures.

The report for our school may or may not have all the information described because the information presented depends on whether the school is an elementary, middle or high school. State law requires that the TAPR display information about the state, the district, and the school. Where possible, the information must be reported by race/ethnicity and socio-economic status of the students and must include at least two years of results.

For the 2019-20 academic year, the accountability system was not used to rate schools due to the impact of COVID. More information about the accountability system and ratings can be found at www.txschools.gov.

As a school of choice, ACA is a proven opportunity for enriched and accelerated learning in our community. ACA continues to utilize norm referenced assessments in order to inform instructional programs and continuously improve our services to our students. Summary results of the NWEA assessment are available as addendum B.

Section 2 – PEIMS Financial Standard Reports (2018-19 Financial Actual Reports)

Additional to the financial reporting available in the TAPR, the Division of School Finance provides a PEIMS Financial Standards Report of 2018-19 Financial Actual Information that is included as addendum C. The Financial Actual Reports can be found at <https://tea.texas.gov/finance-and-grants/state-funding/state-funding-reports-and-data/peims-financial-standard-reports>.

Section 3 – District Accreditation Status

Each district annual report must include the 2019-20 accreditation status according to Texas Education Code §39.051. The accreditation statuses can be accessed online at http://tea4avcastro.tea.state.tx.us/accountability/accreditation/2019_2020_accreditation_statuses.html Arlington Classics Academy's status is **accredited**.

Section 4 - Campus Performance Objectives

Each Texas school is compelled to design strategic goals for the coming year through a Campus Improvement Plan. These strategic goals are driven by campus performance data with the TAPR. During each TAPR reporting period, campuses are asked to reflect on the previous year's successes and challenges. Those are included in the reports.

2019-20 Campus Improvement Plans (CIP) results are included in this report for review as addendum D.

Section 5 – Special Education Determination Status

The special education integrated intervention stage/determination status for each district is on the cover page of the TAPR report. ACA's district special education status is "meets requirements."

Section 6 - Report on Violent or Criminal Incidents

Texas statute requires every district to publish a report on violent or criminal incidents at their schools. ACA is proud to be a safe place for students, families, and staff.

ACA reports zero (0) student violent or criminal incidents that occurred on any campus for the 2019-20 school year.

ACA has adopted and follows school violence prevention and intervention policies and procedures that ensure the safety of our students to the best of our ability. Campus efforts in drug awareness and violence/bullying prevention include inviting officers to discuss the power of good choices as well as other projects and assemblies. Each campus has designated guidance lessons to address these issues directly. Each campus has adopted a Positive Behavior Intervention System or similar discipline management system. The district bullying reporting system is in place and each campus has a method to anonymously report incidents. We continue to employ officers at both campuses for traffic control and assistance on campus for designated times.

The Safe and Drug-Free Schools and Communities Act of 1994 requires school district to evaluate high school students for safety and drug awareness and report the findings from those evaluations. ACA does not have a high school and; therefore, this requirement does not apply.

Section 7- Reports of Student Enrollment and Academic Performance (TEC §SI.043(e))

ACA is an open-enrollment charter school that served students in grades Kindergarten through 8th grade for the 2019-20 school year. Therefore, ACA is not included in this report.

2020 Accountability Rating: Given the impact of COVID-19, all districts and schools received a label of *Not Rated: Declared State of Disaster* for their 2020 accountability ratings. Click here to read the [official announcement](#).

2020 Special Education Determination Status (*district TAPR only*): This label represents an integrated determination level status based on an evaluation of each local education agency's (LEA) Results Driven Accountability (RDA) indicators in the special education program area and four Federally Required Elements (FREs), which include the State Performance Plan (SPP) compliance indicators 9, 10, 11, 12, and 13; data integrity; uncorrected noncompliance; and financial audit findings. Each LEA receives one of four special education determination levels (DLs):

Meets Requirements

Needs Assistance

Needs Intervention

Needs Substantial Intervention

2020 Armed Services Vocational Aptitude Battery (ASVAB) Test (Career Exploration) (*district TAPR only*): Senate Bill 1843 requires that each school year, each school district and open-enrollment charter school provide students in grades 10–12 the opportunity to take the ASVAB and consult with a military recruiter. There are two types of ASVAB tests; only the ASVAB Career Exploration Program (CEP) was evaluated. For the 2019–20 school year, districts were given the opportunity to request a waiver for this requirement due to the COVID-19 pandemic.

Performance

Please note that due to the cancellation of spring 2020 State of Texas Assessments of Academic Readiness (STAAR) due to the COVID-19 pandemic, the Performance section of this year's report is not updated.

STAAR: A comprehensive testing program for public school students in grades 3–8 or high school courses with end-of-course (EOC) assessments. The STAAR program is designed to measure to what extent a student has learned, understood, and is able to apply the concepts and skills expected at each grade level or after completing each course for which an EOC assessment exists. Each STAAR assessment is linked directly to the Texas Essential Knowledge and Skills (TEKS). The TEKS are the state-mandated content standards that describe what a student should know and be able to do upon completion of a course. For more information on the TEKS, see the *Texas Essential Knowledge and Skills* website at <http://tea.texas.gov/curriculum/teks/>.

Other Important Information:

Substitute Assessments. Certain, specific assessments that students may take in place of an EOC assessment. For more information, see the Texas Administrative Code, §101.4002, at <http://ritter.tea.state.tx.us/rules/tac/chapter101/ch101dd.html>.

Special Education. STAAR (with and without accommodations) and STAAR Alternate 2 results are included.

Spanish STAAR. All STAAR assessments in grades 3, 4, and 5 are available in both English and Spanish. The TAPR performance includes performance on the Spanish STAAR.

Rounding of STAAR results. STAAR performance shown on the TAPR is rounded to whole numbers. For example, 49.877% is rounded to 50%; 49.4999% is rounded to 49%; and 59.5% is rounded to 60%.

Masking. STAAR performance rates are masked when necessary to comply with FERPA. For more information, see the Explanation of Masking at <https://rptsvr1.tea.texas.gov/perfreport/account/2020/masking.html>.

STAAR Performance

The STAAR Performance section of the TAPR displays performance results by grade, subject and performance level for students in the accountability subset, which are students enrolled in the same district/campus on both the snapshot date (TSDS PEIMS October snapshot) and the testing date. The STAAR Performance—All Students section of the TAPR displays STAAR performance by grade, subject, and performance level and includes all students tested, regardless of whether they were in the accountability subset.

STAAR Percentage at Masters Grade Level. The percentage of assessments that met the Masters Grade Level standard.

STAAR Performance Rate by Enrolled Grade at Meets Grade Level or Above on Both Reading and Mathematics. The percentage of students who took both the reading and mathematics STAAR and met or exceeded the Meets Grade Level standard on both assessments (excluding EOC assessments).

STAAR Performance Rate by Enrolled Grade at Meets Grade Level or Above on Both Reading and Mathematics Including EOC. The percentage of students who took both the reading and mathematics STAAR or EOC and met or exceeded the Meets Grade Level standard on both assessments.

STAAR Performance Rate by Enrolled Grade at Meets Grade Level or Above on Reading Including EOC. The percentage of students who took the reading STAAR or the English I or II EOC and met or exceeded the Meets Grade Level standard.

STAAR Performance Rate by Enrolled Grade at Meets Grade Level or Above on Mathematics Including EOC. The percentage of students who took the mathematics STAAR or the Algebra I EOC and met or exceeded the Meets Grade Level standard.

Progress (Academic Growth and STAAR Progress Measure)

School Progress Domain—Academic Growth Score. Growth score awarded in School Progress, Part A: Academic Growth for improving performance year over year as measured by STAAR progress measures and performance levels on STAAR.

STAAR Progress Measure Percent at Expected or Accelerated Growth. The percentage of assessments that met or exceeded the STAAR progress measure expectations. See Chapter 3 of the [2019 Accountability Manual](#) for more information.

Comprehensive Glossary

2019–20 Texas Academic Performance Report

STAAR Progress Measure Percent at Accelerated Growth. The percentage of assessments that exceeded the STAAR progress measure expectations. See Chapter 3 of the [2019 Accountability Manual](#) for more information.

Percent of Students Maintaining or Improving Compared to Prior Year Performance Level. The percentage of students that maintained or improved their STAAR performance levels this year in comparison with last year. Students are included in the performance level achieved in the prior year.

Prior Year and SSI

Progress of Prior-Year Non-Proficient Students: The percentage of students in grades 4–8 who did not reach the satisfactory standard on STAAR (including STAAR Alternate 2) in the prior year but passed the corresponding assessment in the current year. For 2018–19, rates for ELA/reading and mathematics are calculated as follows:

$$\frac{\text{number of matched grades 4–8 students who did not reach the satisfactory standard in 2018 but passed in 2019}}{\text{number of matched grades 4–8 students who did not reach the satisfactory standard in 2018}}$$

For 2018–19, students in grades 4–8 included in these measures are those who

- took the spring 2018–19 STAAR (with or without accommodations) or STAAR Alternate 2 in ELA/reading and/or mathematics. This indicator does not include grade 3 assessment takers because that is the first STAAR assessment;
- are part of the 2018–19 accountability subset;
- can be matched to the spring 2017–18 STAAR administration—anywhere in the state—to find their prior year score for ELA/reading and/or mathematics; and
- did not reach the satisfactory standard on the 2017–18 STAAR administration of ELA/reading and/or mathematics.

Bilingual Education/ESL

Bilingual Education (BE): Dual-language program that enables English learners to become competent in listening, speaking, reading, and writing in English through the development of literacy and academic skills in both the primary language and English. This category includes the following:

BE-Trans Early Exit. Bilingual program model that serves students of limited English proficiency. The transitional bilingual/early exit model transfers a student to English-only instruction between two and five years after the student enrolls in school.

BE-Trans Late Exit. Bilingual program model that serves students of limited English proficiency. The transitional bilingual/late exit model transfers a student to English-only instruction between six and seven years after the student enrolls in school.

BE-Dual Two-Way. Biliteracy program model designed to develop fluency and literacy in English and another language. The dual language immersion/two-way model integrates students of limited English proficiency with students proficient in English and transfers a student of limited English proficiency to English-only instruction between six and seven years after the student enrolls in school.

Comprehensive Glossary

2019–20 Texas Academic Performance Report

BE-Dual One-Way. Bilingual program model designed to develop fluency and literacy in English. The dual language immersion/one-way model serves only students of limited English proficiency and transfers a student to English-only instruction between six and seven years after the student enrolls in school.

English as a Second Language (ESL): An intensive program designed to develop proficiency in listening, speaking, reading, and writing in the English language. This category includes the following:

ESL Content. An English program that serves students of limited English proficiency. The English as a second language/content-based model provides a full-time teacher that gives supplementary instruction for all content areas.

ESL Pull-Out. An English program that serves students of limited English proficiency. The English as a second language/pull-out model provides a part-time teacher to give instruction in English language arts only. A student in an ESL Pull-Out program remains in mainstream instructional arrangements for all other content areas.

Limited English Proficient (LEP): The count and percentage of students whose primary language is other than English and who are in the process of acquiring English. The terms “English language learner,” “English learner,” and “Limited English Proficient” (LEP) are used interchangeably. This category includes:

LEP No Services. A student identified as limited English proficient who does not receive any bilingual education or English as a second language services.

LEP with Services. A student identified as limited English proficient who receives bilingual education services or English as a second language services.

School Progress Domain—Academic Growth Score: Points earned for results that either maintained performance or earned *Expected/Accelerated* on the STAAR progress measure. Only includes assessments eligible for a STAAR progress measure.

STAAR Progress Measure Percent at Expected or Accelerated Growth: The percentage of assessments that met or exceeded the STAAR progress measure expectations. See Chapter 3 of the [2019 Accountability Manual](#) for more information.

Progress of Prior-Year Non-Proficient Students: The percentage of students in grades 4–8 who did not reach the satisfactory standard on STAAR (including STAAR Alternate 2) in the prior year but passed the corresponding assessment in the current year. For 2018–19, rates for ELA/reading and mathematics are calculated as follows:

**number of matched grades 4–8 students who did not reach the satisfactory standard in 2018
but passed in 2019**

number of matched grades 4–8 students who did not reach the satisfactory standard in 2018

Participation

Please note that due to the cancellation of spring 2020 State of Texas Assessments of Academic Readiness (STAAR) due to the COVID-19 pandemic, the Participation section of this year's report is not updated.

STAAR Participation

The percentage of students who were administered a STAAR assessment, STAAR Alternate 2, Texas English Language Proficiency Assessment System (TELPAS), and/or TELPAS Alternate. The details on the participation categories are as follows:

Assessment Participant: 1) number of answer documents with a score code of S, 2) number of STAAR Alternate 2 testers with a score code of N, 3) number of substitute assessments, 4) number of A or O reading answer documents with a scored TELPAS or TELPAS Alternate assessment, and 5) number of A or O mathematics answer documents with a scored TELPAS or TELPAS alternate assessment for year 1–5 asylee/refugees and students with interrupted formal education (SIFEs)

- *Included in Accountability:* scored answer documents used in determining the district or campus accountability rating, including substitute assessments with a score code of O
- *Not included in Accountability:* answer documents counted as participants but not used in determining the district or campus accountability rating
 - ◆ *Mobile:* answer documents were excluded because the students enrolled in the district or campus after the fall TSDS PEIMS submission dates (October 26, 2018, or October 27, 2017, for summer 2018 EOCs)
 - ◆ *Other Exclusions.* The following answer documents were excluded from the rating determination:
 - ❖ Answer documents for students who were tested only on the TELPAS/TELPAS Alternate or TELPAS/TELPAS Alternate plus STAAR assessments with score codes of A or O.
 - ❖ Answer documents of students who are either an English learner who has been in school in the U.S. for one year or an unschooled asylee, unschooled refugee, or SIFE student who has been in school in the U.S. for less than six years.
 - ❖ Answer documents of STAAR Alternate 2 testers with a score code of N.

Not Tested: answer documents with score codes A or O

- *Absent:* answer documents with score code A
- *Other:* answer documents with score code O, except for substitute assessments.

The denominator for participation is the sum of these five categories: Included in Accountability, Mobile, Other Exclusions, and Not Tested (Absent and Other). *STAAR Participation Rate* is rounded to a whole number. For example, 94.49% is rounded to 94%. Small values may show as zero: 0.4% is rounded to 0%, and 0.6% is rounded to 1%. (*Data source: STAAR and TELPAS File*)

Attendance and Graduation

Attendance, Graduation, and Dropout Rates

Attendance Rate: The percentage of days that students were present in 2018–19 based on student attendance for the entire school year. Only students in grades 1–12 are included in the calculation. Attendance is calculated as follows:

$$\frac{\text{total number of days that students in grades 1–12 were present in 2018–19}}{\text{total number of days that students in grades 1–12 were in membership in 2018–19}}$$

(Data source: TSDS PEIMS 42400)

Annual Dropout Rate: The percentage of students who drop out of school during a school year. Annual dropout rates are shown for districts and campuses that serve grades 7–8 and/or 9–12. State law prohibits including a student who meets any of the following criteria from campus and district annual dropout rate calculations:

- Is ordered by a court to attend a high school equivalency certificate program but has not earned a high school equivalency certificate
- Was previously reported to the state as a dropout
- Was in attendance but not in membership for purposes of average daily attendance (i.e., students for whom school districts are not receiving state Foundation School Program [FSP] funds)
- Was initially enrolled in a school in the United States in any grade 7 through 12 as an unschooled refugee or asylee as defined by [TEC §39.027\(a-1\)](#)
- Attends a district exclusively as a function of having been detained at a county detention facility and is not otherwise a student of the district in which the facility is located or is being provided services by an open-enrollment charter school exclusively as the result of having been detained at the facility
- Is incarcerated in a state jail or federal penitentiary as an adult or as a person certified to stand trial as an adult
- Is a student in a Texas Juvenile Justice Department facility or residential treatment facility served by a Texas public school district
- Is at least 18 years of age as of September 1 and has satisfied the credit requirements for high school graduation; has not completed his or her individualized education program (IEP); and is enrolled and receiving IEP services

Annual Dropout Rate (Gr 7–8). This includes only grades 7 and 8. It is calculated as follows:

$$\frac{\text{number of dropouts in grades 7 and 8 during the 2018–19 school year}}{\text{number of students in grades 7 and 8 in attendance at any time during the 2018–19 school year}}$$

Comprehensive Glossary

2019–20 Texas Academic Performance Report

Annual Dropout Rate (Gr 9–12). This includes grades 9 through 12. It is calculated as follows:

number of dropouts in grades 9–12 during the 2018–19 school year

number of students in grades 9–12 in attendance at any time during the 2018–19 school year

Both annual dropout rates appear on campus, district, region, and state TAPRs. The state and region annual dropout rates that are reported on district and campus TAPRs, however, are calculated without the exclusions required for campus and district calculations.

Note that with all annual dropout rate calculations, a cumulative count of students is used in the denominator. This method for calculating the dropout rate neutralizes the effect of mobility by including in the denominator every student ever reported in attendance at the district or campus throughout the school year, regardless of length of enrollment. For a more complete description of dropout rates and exclusions, see the [Secondary School Completion and Dropouts in Texas Public Schools, 2018–19](#) reports, available on the TEA website at http://tea.texas.gov/acctres/dropcomp_index.html.

Longitudinal Rates: The status of a group (cohort) of students after four years in high school (*4-Year Longitudinal Rate*), after five years in high school (*5-Year Extended Longitudinal Rate*), or after six years in high school (*6-Year Extended Longitudinal Rate*).

For the *4-Year Longitudinal Rate*, the cohort consists of students who first attended ninth grade in 2015–16. They are followed through their expected graduation with the Class of 2019.

For the *5-Year Extended Longitudinal Rate*, the cohort consists of students who first attended ninth grade in 2014–15. They are followed for five years and included if they graduated within a year after their expected graduation with the Class of 2018.

For the *6-Year Extended Longitudinal Rate*, the cohort consists of students who first attended ninth grade in 2013–14. They are followed for six years and included if they graduated within two years after their expected graduation with the Class of 2017.

Additional Information on Cohorts:

A student transfers into a campus, district, or state cohort when he or she moves into the cohort from another high school in Texas, from another district in Texas, or from out of state.

A student transfers out of a campus or district cohort when he or she moves to another public high school in Texas or moves to another district in Texas. Note that these students are transferred into the cohort of the high school or district to which they moved. There are also students who move out of state or out of the country and students who transfer to private schools or who are home-schooled. These types of transfer students cannot be tracked and are not included in longitudinal rate calculations.

A student does not change cohorts if he or she repeats or skips a grade. A student who begins with the 2015–16 ninth-grade cohort remains with that cohort. A student who started the ninth grade in 2015–16 but takes 5 years to graduate (i.e., graduates in May 2020) is still part of the 2019 cohort; he or she is not switched to the 2020 cohort. This student would be considered a

continuing student and counted as part of the Continued HS number for the Class of 2019. This is also true for the five-year and six-year extended longitudinal cohorts.

There are four student outcomes used in computing each longitudinal rate:

4-Year Longitudinal Rate

- (1) *Graduated*: The percentage who received their high school diploma in four years or fewer by August 31, 2019 for the 2019 cohort.

**number of students from the cohort who received a high school diploma by
August 31, 2019**

number of students in the 2019 cohort*

- (2) *Received TxCHSE*: For the 2019 cohort, the percentage who received a Texas high school equivalency certificate by August 31, 2019. It is calculated as follows:

number of students from the cohort who received a TxCHSE by August 31, 2019

number of students in the 2019 cohort*

- (3) *Continued High School*: The percentage of the 2019 cohort still enrolled as students in the fall of the 2019–20 school year. It is calculated as follows:

number of students from the cohort who were enrolled in the fall of the 2019–20 school year

number of students in the 2019 cohort*

- (4) *Dropped Out*: The percentage of the 2019 cohort who dropped out and did not return by the fall of the 2019–20 school year. It is calculated as follows:

**number of students from the cohort who dropped out before fall of the 2019–20 school
year**

number of students in the 2019 cohort*

- (5) *Graduates & TxCHSE*: The percentage of graduates and TxCHSE recipients in the 2019 cohort. It is calculated as follows:

**number of students from the 2019 cohort who received a high school diploma by August 31,
2019 plus number of students from the cohort who received a TxCHSE by August 31, 2019**

number of students in the 2019 cohort*

(6) *Graduates, TxCHSE & Continuers*: The percentage of graduates, TxCHSE recipients, and continuers in the 2019 cohort. It is calculated as follows:

$$\frac{\begin{aligned} &\text{number of students from the cohort who received a high school diploma by August 31, 2019} \\ &\quad \text{plus} \\ &\text{number of students from the cohort who received a TxCHSE by August 31, 2019} \\ &\quad \text{plus} \\ &\text{number of students from the cohort who were enrolled in the fall of the 2019–20 school year} \end{aligned}}{\text{number of students in the 2019 cohort*}}$$

5-Year Extended Longitudinal Rate

(1) *Graduated*: The percentage who received their high school diploma by August 31, 2019, for the 2018 cohort. It is calculated as follows:

$$\frac{\text{number of students from the cohort who received a high school diploma by August 31, 2019}}{\text{number of students in the 2018 cohort*}}$$

(2) *Received TxCHSE*: For the 2018 cohort, the percentage who received a TxCHSE certificate by August 31, 2019. It is calculated as follows:

$$\frac{\text{number of students from the cohort who received a TxCHSE by August 31, 2019}}{\text{number of students in the 2018 cohort*}}$$

(3) *Continued High School*: The percentage of the 2018 cohort still enrolled as students in the fall of the 2019–20 school year. It is calculated as follows:

$$\frac{\text{number of students from the cohort who were enrolled in the fall of the 2019–20 school year}}{\text{number of students in the 2018 cohort*}}$$

(4) *Dropped Out*: The percentage of the 2018 cohort who dropped out and did not return by the fall of the 2019–20 school year. It is calculated as follows:

$$\frac{\text{number of students from the cohort who dropped out before fall of the 2019–20 school year}}{\text{number of students in the 2018 cohort*}}$$

- (5) *Graduates & TxCHSE*: The percentage of graduates and TxCHSE recipients in the 2018 cohort. It is calculated as follows:

number of students from the cohort who received a high school diploma by August 31, 2019
plus
number of students from the cohort who received a TxCHSE by August 31, 2019

number of students in the 2018 cohort*

- (6) *Graduates, TxCHSE & Continuers*: The percentage of graduates, TxCHSE recipients, and continuers in the 2018 cohort. It is calculated as follows:

number of students from the cohort who received a high school diploma by August 31, 2019
plus
number of students from the cohort who received a TxCHSE by August 31, 2019
plus
number of students from the cohort who were enrolled in the fall of the 2019–20 school year

number of students in the 2018 cohort*

6-year Extended Longitudinal Rate

- (1) *Graduated*: The percentage who received their high school diploma by August 31, 2019, for the 2017 cohort. It is calculated as follows:

number of students from the cohort who received a high school diploma by August 31, 2019

number of students in the 2017 cohort*

- (2) *Received TxCHSE*: For the 2017 cohort, the percentage who received a TxCHSE certificate by August 31, 2019. It is calculated as follows:

number of students from the cohort who received a TxCHSE by August 31, 2019

number of students in the 2017 cohort*

- (3) *Continued High School*: The percentage of the 2017 cohort still enrolled as students in the fall of the 2019–20 school year. It is calculated as follows:

number of students from the cohort who were enrolled in the fall of the 2019–20 school year

number of students in the 2017 cohort*

- (4) *Dropped Out*: The percentage of the 2017 cohort who dropped out and did not return by the fall of the 2019–20 school year. It is calculated as follows:

number of students from the cohort who dropped out before fall of the 2019–20 school year

- (5) *Graduates & TxCHSE*. The percentage of graduates and TxCHSE recipients in the 2017 cohort. It is calculated as follows:

$$\frac{\begin{array}{c} \text{number of students from the cohort who received a high school diploma by August 31, 2019} \\ \text{plus} \\ \text{number of students from the cohort who received a TxCHSE by August 31, 2019} \end{array}}{\text{number of students in the 2017 cohort}^*}$$

- (6) *Graduates, TxCHSE & Continuers*. The percentage of graduates, TxCHSE recipients, and continuers in the 2017 cohort. It is calculated as follows:

$$\frac{\begin{array}{c} \text{number of students from the cohort who received a high school diploma by August 31, 2019} \\ \text{plus} \\ \text{number of students from the cohort who received a TxCHSE by August 31, 2019} \\ \text{plus} \\ \text{number of students from the cohort who were enrolled in the fall of the 2019–20 school year} \end{array}}{\text{number of students in the 2017 cohort}^*}$$

- * The cohort in the denominator of the formulas shown above includes those students who graduated, continued in school, received a TxCHSE, or dropped out. It does not include data errors or leavers with the leaver reason codes 03, 16, 24, 60, 66, 78, 81, 82, 83, 85, 86, 87, 88, 89 or 90. See *Annual Dropout Rate* for a list of all the exclusions mandated by state statute for districts and campuses.

The graduation, continuation, TxCHSE recipient, and dropout rates sum to 100% (some totals may not equal exactly 100% due to rounding). Students served through special education who graduate with an individualized education program (IEP) are included as graduates.

Additional Information about Federal Graduation Rates

In addition to the detailed breakdown of the four-, five- and six-year longitudinal rates, the district and campus TAPRs show federal graduation rates for the following:

- (1) *4-Year Federal Graduation Rate*. Cohort of students who first attended ninth grade in 2015–16. They are followed through their expected graduation with the Class of 2019. It is calculated as follows:

$$\frac{\text{number of students from the cohort who received a high school diploma by August 31, 2019}}{\text{number of students in the 2019 cohort}^{**}}$$

- (2) *5-Year Extended Federal Graduation Rate*. Cohort of students who first attended ninth grade in 2014–15. They are followed for five years to see if they graduated within a year after their expected graduation with the Class of 2018. It is calculated as follows:

$$\frac{\text{number of students from the cohort who received a high school diploma by August 31, 2019}}{\text{number of students in the 2018 cohort}^{**}}$$

- (3) *6-Year Extended Federal Graduation Rate.* Cohort of students who first attended ninth grade in 2013–14. They are followed for six years to see if they graduated within two years after their expected graduation with the Class of 2017. It is calculated as follows:

number of students from the cohort who received a high school diploma by August 31, 2019

number of students in the 2017 cohort**

** The cohort in the denominator above includes those students who graduated, continued in school, received a TxCHSE, or dropped out. It does not include data errors or leavers with leaver reason codes 03, 16, 24, 60, 66, 78, 81, 82, 83, 85, 86, 87, or 90. Students with leaver codes 88 and 89 are included in the federal rates.

A student in a Texas Juvenile Justice Department facility or residential treatment facility served by a Texas public school district is excluded from district and campus graduation rates calculated for federal accountability purposes. Students served by special education who graduate with an individualized education program (IEP) are included as graduates.

Graduation Profile

Annual Graduates: The count and percentage of students who graduate at some time during the school year. It includes summer graduates and is reported by districts in the fall of the following school year. It includes all students in grade 12 who graduated, as well as graduates from other grades. Students served by special education who graduate are included in the totals. Counts of students graduating under the following graduation types in 2018–19 are also shown:

- Minimum High School Program (MHSP)
- Recommended High School Program (RHSP)
- Distinguished Achievement Program (DAP)
- Foundation High School Program (FHSP)

College, Career, or Military Readiness (CCMR)

Annual graduates demonstrate college, career, or military readiness in any one of the following ways:

College Readiness

- 1) **Texas Success Initiative (TSI) Criteria:** A graduate meeting the TSI college readiness standards in both ELA/reading and mathematics; specifically, meeting the college-ready criteria on the TSI assessment, SAT, ACT, or by successfully completing and earning credit for a college prep course as defined in TEC §28.014, in both ELA and mathematics. *(Data source: TSDS PEIMS 43415, THECB, College Board, and ACT, Inc.)*
- 2) **Earn Dual Course Credits:** A graduate completing and earning credit for at least three credit hours in ELA or mathematics or at least nine credit hours in any subject. *(Data source: TSDS PEIMS 43415)*
- 3) **Meet Criteria on Advanced Placement (AP)/International Baccalaureate (IB) Examination:** A graduate meeting the criterion score on an AP or IB examination in any subject area. Criterion score is 3 or more for AP and 4 or more for IB. *(Data source: College Board or IB)*
- 4) **Earn an Associate’s Degree:** A graduate earning an associate’s degree prior to graduation from high school. *(Data source: TSDS PEIMS 40100)*
- 5) **Earn OnRamps Course Credits:** A graduate completing an OnRamps dual enrollment course and qualifying for at least three hours of university or college credit in any subject area. *(Data source: OnRamps program)*

Career/Military Readiness

- 6) **Earn an Industry-Based Certification:** A graduate earning an industry-based certification under 19 TAC §74.1003. *(Data source: TSDS PEIMS 40100)*
- 7) **Graduate with Completed IEP and Workforce Readiness:** A graduate receiving a graduation type code of 04, 05, 54, or 55 which indicates the student has completed his/her IEP and has either demonstrated self-employment with self-help skills to maintain employment or has demonstrated mastery of specific employability and self-help skills that do not require public school services. *(Data source: TSDS PEIMS 40203)*
- 8) **CTE Coherent Sequence Coursework Aligned with Industry-Based Certifications:** A CTE coherent sequence graduate completing and receiving credit for at least one CTE course aligned with an industry-based certification. This indicator awards one-half point only for graduates who have met no other CCMR indicator. The list of CTE courses aligned with industry-based certifications is provided in Chapter 2 of the [2020 Accountability Manual](#) and the [2019 Accountability Manual](#). *(Data source: TSDS PEIMS 43415 and 40110 [summer])*
- 9) **Enlist in the Armed Forces:** A graduate enlisting in the U.S. Army, Navy, Air Force, Coast Guard, or Marines. *(Data source: TSDS PEIMS 40203)*
- 10) **Graduates under an Advanced Degree Plan and Identified as a current Special Education Student:** A graduate who graduates under an advanced degree plan and is identified as a current special education student *(Data source: TSDS PEIMS 40203 and 40110)*

College, Career, or Military Ready Graduates

College, Career, or Military Ready (Student Achievement): The percentage of annual graduates who demonstrated college, career, or military readiness by meeting at least one of the eleven criteria described in *College, Career, or Military Readiness*.

Only College Ready: The percentage of annual graduates who demonstrated only college readiness by meeting college ready criteria 1, 2, 3, 4, or 5 but did not meet any of the career and military ready criteria 6, 7, 8, 9, 10, or 11 described in *College, Career, or Military Readiness*.

Only Career/Military Ready: The percentage of annual graduates who demonstrated only career or military readiness by meeting career or military ready criteria 6, 7, 8, 9, 10, or 11 but did not meet any of the college ready criteria 1, 2, 3, 4, and 5 described in *College, Career, or Military Readiness*.

College Ready and Career/Military Ready: The percentage of annual graduates who demonstrated college and career/military readiness by meeting college ready criteria 1, 2, 3, 4, or 5 and career or military ready criteria 6, 7, 8, 9, 10, or 11 described in *College, Career, or Military Readiness*.

College Ready Graduates

College Ready: The percentage of annual graduates who demonstrated college readiness by meeting criteria 1, 2, 3, 4, or 5 described in *College, Career, or Military Readiness*. Profile

Student Information

Please note, the Enrollment section of this report is new this year. The definitions below describe the nuances between Membership and Enrollment. If comparing the data shown from this year's report to previous reports, use the data displayed under Membership.

Enrollment: Students reported as enrolled as of the last Friday in October (October 25, 2019).

Membership: Membership differs from enrollment, as it does not include those students who are served for less than two hours per day. A student is in membership if he/she is enrolled and is either

- scheduled to attend at least two hours of instruction each school day or
- participating in an alternative attendance accounting program.

For example, the count of *Total Students* excludes students who attend a non-public school but receive some services, such as speech therapy—for less than two hours per day—from their local school district.

Total Students: The total number of public school students who were reported at any grade from early childhood education through grade 12. *(Data source: TSDS PEIMS 40110)*

Students by Grade: The count of students in each grade divided by the total number of students. *(Data source: TSDS PEIMS 40110)*

Ethnic Distribution: The number and percentage of students and staff who are identified as belonging to one of the following groups: African American, Hispanic, white, American Indian, Asian, Pacific Islander, and two or more races. *(Data source: TSDS PEIMS 40100, 30040, 30050, 30090)*

Male/Female: The number and percentage of students who are identified as male or female. *(Data source: TSDS PEIMS 40100)*

Economically Disadvantaged: The count and percentage of students eligible for free or reduced-price lunch or eligible for other public assistance.

(Data source: TSDS PEIMS 40100 and TEA Student Assessment Division)

Non-Educationally Disadvantaged: Those students not eligible to participate in free or reduced-price lunch or to receive any other public assistance. This is the complementary count and percentage to Economically Disadvantaged.

Section 504 Students: The count and percentage of students identified as receiving section 504 services.

English Learners (ELs): The count and percentage of students whose primary language is other than English and who are in the process of acquiring English. The terms “English Learner” and “Limited English Proficient” (LEP) are used interchangeably.

Comprehensive Glossary

2019–20 Texas Academic Performance Report

The percentage of ELs is calculated by dividing the number of ELs by the total number of students in the district or campus. Not all students identified as ELs receive bilingual or English as a second language instruction. *(Data source: TELPAS file)*

Students with Disciplinary Placements: The count and percentage of students placed in alternative education programs under [Chapter 37 of the Texas Education Code](#) (Discipline; Law and Order). Districts report the disciplinary actions taken toward students who are removed from the classroom for at least one day. Although students can have multiple removals throughout the year, this measure counts students only once and includes only those whose removal results in a placement in a disciplinary alternative education program or juvenile justice alternative education program. It is calculated as follows:

number of students with one or more disciplinary placements

number of students who were in attendance at any time during the school year

For 2019–20, the following 19 disciplinary action codes are included as disciplinary placements: 02, 03, 04, 07, 08, 10, 12, 13, 14, 15, 51, 52, 53, 54, 55, 57, 59, 60, and 61. *(Data source: TSDS PEIMS 44425)*

Students with Dyslexia: The count and percentage of students identified with Dyslexia. *(Data source: TSDS PEIMS 40100)*

Foster Care: The count and percentage of students identified as in the conservatorship of the Department of Family and Protective Services (DFPS). *(Data source: TSDS PEIMS 40100)*

Homeless: The count and percentage of students meeting the criteria defined by 42 U.S.C. Section 11434(a), the term “homeless children and youths” —

(A) individuals who lack a fixed, regular, and adequate nighttime residence [within the meaning of section 11302(a)(1)]; and

(B) includes —

(i) children and youths who are sharing the housing of other persons due to loss of housing, economic hardship, or a similar reason; are living in motels, hotels, trailer parks, or camping grounds due to the lack of alternative adequate accommodations; are living in emergency or transitional shelters;

(ii) children and youths who have a primary nighttime residence that is a public or private place not designed for or ordinarily used as a regular sleeping accommodation for human beings [within the meaning of section 11302(a)(2) (C)];

(iii) children and youths who are living in cars, parks, public spaces, abandoned buildings, substandard housing, bus or train stations, or similar settings; and

(iv) migratory children (as such term is defined in section 6399 of title 20) who qualify as homeless for the purposes of this subtitle because the children are living in circumstances described in clauses (i) through (iii).

(Data source: TSDS PEIMS 40100)

Immigrant: The count and percentage of students identified under the definition found under

Title III of the No Child Left Behind Act of 2001 (NCLB), where the term ‘immigrant children and youth’ is defined as, “individuals who are aged 3 through 21; were not born in any state; and have not been

Migrant: The count and percentage of students that meet the following criteria: Student is (ages 3-21), or the student's parent, spouse, or guardian is a migratory agricultural worker, including a migratory dairy worker, or a migratory fisher, and who, in the preceding 36 months, in order to obtain, or accompany such parent, spouse, or guardian in order to obtain, temporary or seasonal employment in agricultural or fishing work: 1) has moved from one school district to another; or 2) resides in a school district of more than 15,000 square miles, and migrates a distance of 20 miles or more to a temporary residence to engage in a fishing activity. *(Data source: TSDS PEIMS 40100)*

Title I: The count and percentage of students participating in a program authorized under Elementary and Secondary Education Act (ESEA), Title I, Part A of the Improving America's Schools Act. *(Data source: TSDS PEIMS 41461)*

Military Connected: The count and percentage of students who are dependents of an active duty or former member of the United States military, the Texas National Guard, or a reserve force of the United States military, or who are dependents of a member of the United States military, the Texas National Guard, or a reserve force of the United States military who was killed in the line of duty. *(Data source: TSDS PEIMS 40100)*

Mobility: The count and percentage of students who have been in membership for less than 83 percent of the school year (i.e., missed six or more weeks).

number of mobile students in 2018–19

**number of students who were in membership at any time during the
2018–19 school year**

This rate is calculated at the state, region, district, and campus level and is disaggregated by race/ethnicity, economically disadvantaged status, special education status, and English learner status. The mobility rates shown are based on the count of mobile students identified at the campus level. The district mobility rate reflects school-to-school mobility within the same district or from outside the district. The region mobility rate reflects school-to-school mobility within the same region or from outside the region. *(Data source: TSDS PEIMS 42400)*

Comprehensive Glossary

2019–20 Texas Academic Performance Report

Attrition Rates (*campus profile only*): The percentage of students enrolled in fall 2018–19 who did not return to the same campus in the fall of 2019–20. This calculation is adjusted to account for the grade levels available to students at each campus as well as additional factors. For instance, students were excluded from the calculation if they were enrolled at the highest grade offered at the campus, were not considered to be in membership for the purposes of calculating average daily attendance for funding purposes or were at a campus in 2018–19 that was no longer active in 2019–20. Students who were retained in grade, including those in grade 12, remained in the calculation. Attrition Rate is calculated as follows:

$$\frac{\text{number of students enrolled in fall 2018} - \text{number of students who returned in fall 2019}}{\text{number of students enrolled in fall 2018}}$$

Retention Rates by Grade: The percentage of students in Texas public schools who enrolled in fall 2019 in the same grade in which they were reported for the last six-week period of the prior school year (2018–19).

$$\frac{\text{the number of students enrolled in the same grade from one school year to the next}}{\text{the number of students enrolled from one school year who return the next year or who graduate}}$$

Special education retention rates are calculated and reported separately because local retention practices differ for students served by special education.

The TAPR shows retention rates only for grades K–9. Retention rates for all grades can be found in [Grade-Level Retention in Texas Public Schools, 2018–19](#), available from TEA. (*Data source: TSDS PEIMS 40110*)

Data Quality (*not on campus profile*): The percentage of errors made by the district in the TSDS PEIMS Student Leaver Data.

Percent of Underreported Students. Underreported students are 7th–12th graders who were enrolled at any time during the prior year, who are not accounted for through district records or TEA processing in the current year, and for whom the district did not submit a leaver record. A district is required to submit a leaver record for any student served in grades 7–12 the previous year unless the student received a Texas high school equivalency certificate (TxCHSE) certificate by August 31, is a previous Texas public school graduate, moved to and enrolled in another Texas public school district, or returned to the district by the end of the school start window. (For 2018–19 the end of the school-start window was September 27, 2019.)

$$\frac{\text{number of underreported students}}{\text{number of students in grades 7–12 who were served in the district in the 2018–19 school year}}$$

Class Size Averages by Grade and Subject: The average class size by grade (elementary) or selected subjects (secondary classes).

Comprehensive Glossary

2019–20 Texas Academic Performance Report

For secondary classes, averages are determined by totaling the number of students served (in a subject at the campus) and dividing that sum by the count of classes for that subject.

For elementary classes, how the average is determined depends on the instructional model. If an elementary teacher teaches all subjects to the same group of fourth graders all day, the class size average is simply the number of fourth grade students served by that teacher. If an elementary teacher teaches a single subject to five different sections of fourth graders each day, however, the average is calculated the same way as for secondary subjects. For example, one fourth grade science teacher teaches five science classes each day with 18, 20, 19, 21, and 22 students in each class. The total of 100 students divided by the five classes produces an average class size of 20 students for that teacher.

The following rules apply to the average class sizes:

- Classes identified as serving regular, compensatory/remedial, gifted and talented, career and technical, and honors students are included in the calculation.
- English language arts (ELA), mathematics, science, social studies, languages other than English, computer science, and career and technical education are included in the calculation, as are self-contained classrooms.
- Classes where the number of students served is reported as zero are not included.
- Service codes with the “SR” prefix are not included.
- Teacher roles coded as “teacher” and/or “substitute teacher” are included.
- Only class settings coded as “regular class” are included.
- Missing partial FTE counts are not included.
- Elementary classes in which the number of students exceeds 100 are not included.
- Mixed grade-level class averages are not included.

Staff Information

Total Staff: The total count of staff which includes professional staff (teachers, professional support, administrators), educational aides, and (on the district profile) auxiliary staff. *(Data source: TSDS PEIMS 30040, 30050, and 30090)*

Professional Staff: The full-time equivalent (FTE) count of teachers, professional support staff, campus administrators, and on the district profile, central office administrators. Staff are grouped according to roles as reported in TSDS PEIMS. Each type of professional staff is shown as a percentage of the total staff FTE. See Appendix A for all TSDS PEIMS Role IDs. *(Data source: TSDS PEIMS 30040, 30050, and 30090)*

Educational Aides: The count and percentage of paraprofessional staff who are reported with a role of 033 (Educational Aide) or 036 (Certified Interpreter). The FTE counts of educational aides are expressed as a percentage of the total staff FTEs. See Appendix A for all TSDS PEIMS Role IDs. *(Data source: TSDS PEIMS 30090)*

Comprehensive Glossary

2019–20 Texas Academic Performance Report

Auxiliary Staff (*not on campus profile*): The count of full-time equivalent (FTE) staff reported in TSDS PEIMS employment and payroll records who are not reported in the TSDS PEIMS 30090 Staff – Responsibilities record. The auxiliary staff (and educational aide who performs routine classroom tasks under the general supervision of a certified teacher or teaching team) are expressed as a percentage of total staff. For auxiliary staff, the FTE is the value of the percentage of day worked. (*Data source: TSDS PEIMS 30060 and 30090*)

Librarians and Counselors (Headcount): The headcount of librarians and counselors is based on full-time equivalent (FTE) for full-time and part-time headcounts. Librarians and counselors are considered part-time when the FTE count is less than or equal to .85 (For example, FTE count less than or equal to .85, the part-time headcount is equal to 1).

Librarians and counselors are headcounts not sums of FTEs. The district headcount is not a sum of the campus headcount. For example, a counselor spends 50 percent of their time at the elementary (0.50 FTE) and 50 percent of their time at the high school (0.50 FTE). On each of the campus reports, this counselor will be reflected as 1.0 part-time counselor. On the district report the counselor will be reflected as 1.0 full-time counselor since the FTE count is greater than .85 (0.50 FTE plus 0.50 FTE=1.0 FTE). See Appendix A for TSDS PEIMS Role IDs (Professional Support Staff). (*Data source: TSDS PEIMS 30040, 30050, and 30090*)

Total Minority Staff: The total count of minority staff is the sum of the FTE counts for all non-white staff groups (African American, Hispanic, American Indian, Asian, Pacific Islander, and Two or More Races). The minority staff FTE count is expressed as a percentage of the total staff FTE. (*Data source: TSDS PEIMS 30040, 30050, and 30090*)

Teachers by Ethnicity and Sex: The counts of teacher FTEs by ethnic group and by sex. Counts are also expressed as a percentage of the total teacher FTEs. (*Data source: TSDS PEIMS 30040, 30050, and 30090*)

Teachers by Highest Degree Held: The distribution of degrees held by teachers. The FTE counts of teachers with no degree, a bachelor's degree, a master's degree, or a doctorate are expressed as a percentage of the total teacher FTEs. (*Data source: TSDS PEIMS 30040, 30050, and 30090*)

Teachers by Years of Experience: The FTE count of teachers by total years of experience for the individual, not necessarily years of experience in the district or campus. Teacher counts within each range of experience are expressed as a percentage of total teacher FTEs. Teachers are reported with zero years of experience (first year teachers), 1–5 years, 6–10 years, 11–20 years, and over 20 years. (*Data source: TSDS PEIMS 30040, 30050, and 30090*)

Number of Students per Teacher: The total number of students divided by the total teacher FTE count. (*Data source: TSDS PEIMS 30040, 30050, and 30090*)

Experience of Campus Leadership: The average years of experience for principals and assistant principals.

Average Years as Principal: The number of completed years of experience as a principal, regardless of district or interruption in service. These amounts are added together and divided by the number of all principals reported for the campus.

Comprehensive Glossary

2019–20 Texas Academic Performance Report

Average Years as Principal with District: The number of years a principal is employed in the district regardless of any interruption in service. The amounts are added together and divided by the number of principals reported for the district.

Average Years as Assistant Principal: The number of completed years of experience as assistant principal, regardless of district or interruption of service. The amounts are added together and divided by the number of assistant principals reported for the campus.

Average Years as Assistant Principal with District: The number of years employed as assistant principal in the district regardless of any interruption in service. These amounts are added together and divided by the number of assistant principals reported for the district.

(Data source: TSDS PEIMS 30050)

Average Years Experience of Teachers: The average number of completed years of professional experience, regardless of district. Weighted averages are calculated by multiplying each teacher's FTE coefficient (1 for a full-time teacher, .75 for a three-quarter-time teacher, and .5 for a half-time teacher, for example) by his or her years of experience. These amounts are added together and divided by the sum of all teachers' FTE coefficients. *(Data source: TSDS PEIMS 30040, 30050, and 30090)*

Average Years Experience of Teachers with District: The average number of years employed in the district regardless of any interruption in service. Weighted averages are calculated by multiplying each teacher's FTE coefficient by his or her years of experience in the district. These amounts are added together and divided by the sum of all teacher's coefficients. *(Data source: TSDS PEIMS 30050)*

Average Teacher Salary by Years of Experience (regular duties only): Total pay for all teachers in each category divided by the total teacher FTE count in that category. For the purpose of this calculation, the total actual salary amount is pay for regular duties only and does not include supplemental pay. For teachers who also have non-teaching roles, only the portion of time and pay dedicated to classroom responsibilities is factored into the average teacher salary calculation. Teachers are reported with zero years of experience (first year teacher), 1–5 years, 6–10 years, 11–20 years, and over 20 years. *(Data source: TSDS PEIMS 30060)*

Average Actual Salaries (regular duties only): For each category, the total salary for that category divided by the total FTE count for that category. Only payment for regular duties is included in the total salary; supplemental payments for extra duties (e.g., coaching, band and orchestra assignments, club sponsorships) are not included. See Appendix A for lists of the TSDS PEIMS role IDs included in each category.

Teachers. Teachers, special duty teachers, and substitute teachers. Substitute teachers are either temporarily hired to replace a teacher or hired permanently on an as-needed basis. The District Teacher Salary Report and Graph also uses this definition in creating counts for various salary ranges.

Professional Support. Therapists, nurses, librarians, counselors, and other campus professional personnel.

Campus Administration (School Leadership). Principals, assistant principals, and other administrators reported with a specific school ID.

Comprehensive Glossary

2019–20 Texas Academic Performance Report

Central Administration (not on campus profile). Superintendents, presidents, chief executive officers, chief administrative officers, business managers, athletic directors, and other administrators reported with a central office ID and not a specific school ID.

Instructional Staff Percent (*district profile only*): The percentage of the district's FTEs whose job function was to provide classroom instruction directly to students during the 2018–19 school year. The instructional staff percent is a district-level measure and is calculated as follows:

$$\frac{\text{total number of hours for district staff who were reported under expenditure object codes 6112, 6119, and 6129, and function codes 11, 12, 13, and 31}}{\text{total number of hours worked by all district employees}}$$

Contact the Division of Financial Compliance at (512) 463-9095 for further details about this measure. (*Data source: TSDS PEIMS 30040, 30050, and 30090*)

Turnover Rate for Teachers (*not on campus profile*): The percentage of teachers from the fall of 2018–19 who were not employed in the district in the fall of 2019–20. It is calculated as the total FTE count of teachers from the fall of 2018–19 who were not employed in the district in the fall of 2019–20, divided by the total teacher FTE count for the fall of 2018–19. Staff who remained employed in the district but not as teachers also count toward teacher turnover. (*Data source: TSDS PEIMS 30040 and 30090*)

Staff Exclusions (*not on campus profile*): The counts of individuals who serve public school students but are not included in the FTE totals for any of the other employee statistics. There are two types of these entries: individuals participating in a shared services arrangement and individuals on contract with the district to provide instructional services.

Shared Services Arrangement (SSA) Staff are staff who work in schools located in districts other than their employing district or whose assigned organization (in TSDS PEIMS) shows a code of 751, indicating that they are employed by the fiscal agent of an SSA. Only the portion of a person's total FTE amount associated with the school in another district (or with the 751 organization code) is counted as SSA. SSA staff are grouped into three categories: Professional Staff (which includes teachers, administrators, and professional support); Educational Aides; and Auxiliary Staff. Note that SSA Auxiliary Staff are identified by the type of fund from which they are paid.

Contracted Instructional Staff (District and Campus Profiles) refers to counts of instructors for whom the district has entered into a contractual agreement with some outside organization. Through the contract, the outside organization has committed to supplying instructional staff for the district. They are never employees of the reporting school district. (*Data source: TSDS PEIMS 30055 and 30060*)

Contracted Instructional Staff: The count of individuals who are not regular classroom teachers who have signed a contract with a district, nor are they shared services arrangement employees. Rather, these are instructors for whom the district has entered into a contractual agreement with an outside organization. Through the contract, the outside organization has committed to supplying instructional staff for the district. They include, but are not limited to, speech therapists, occupational therapists, and any other professional contracted staff working in a classroom on a dedicated basis.

Teachers by Program (*population served*): The FTE count of teachers categorized by the type of student populations served: regular, special, compensatory, career and technical, bilingual/ESL, gifted and talented education students, and other populations. Teacher FTE values are allocated across population

types for teachers who serve multiple population types. Percentages are expressed as a percentage of total teacher FTEs. (Data source: TSDS PEIMS 30040, 30050, and 30090)

Kindergarten Readiness

Kindergarten Readiness

This report includes kindergarten readiness data for students who were enrolled in public kindergarten and were assessed using one of the approved instruments on the [Commissioner’s List of Reading Instruments](#). Data are shown for the district and campus at which the student attended kindergarten.

Readiness is based on the literacy assessment only and does not provide comprehensive information on student readiness across important developmental domains.

Assessed Students in KG: Kindergarten students enrolled in the Texas public school system as of the Fall Snapshot date (the last Friday in October of each year) who were administered, at the beginning of year (BOY) administration, an assessment on the [Commissioner’s List of Reading Instruments](#). Students may take multiple assessments.

Eligible: Kindergarten students who met at least one of the public prekindergarten (PK) eligibility criteria during the kindergarten year—economically disadvantaged, English learner (EL), homeless, is or ever has been in foster care, is the child of an active duty member of the armed forces of the United States, or is the child of a member of the armed forces who was injured or killed while on active duty—not the actual eligibility as of the PK year. PK eligibility is based on a student’s status as of his/her kindergarten year as there are no comprehensive data concerning PK eligibility for children who did not attend public PK.

Eligible Students Who Attended PK: Kindergarten students who were assessed for kindergarten readiness and were eligible to attend public PK and did attend.

Eligible Students Who Did Not Attend PK: Kindergarten students who were assessed for kindergarten readiness and were eligible to attend public PK but did not attend.

Students Who Were Not Eligible for PK: Kindergarten students who were assessed for kindergarten readiness and were not eligible for public PK.

Students Ready for KG: Count of all assessed kindergarten students who met or exceeded the cut-off score for a particular assessment on the [Commissioner’s List of Reading Instruments](#). Kindergarten readiness for each assessment is assessed differently across multiple assessment domains with varying benchmarks/cut-off scores of readiness. For school years 2013–14 through 2019–20, readiness is based on the literacy assessment only and does not provide comprehensive information on student readiness across important developmental domains.

Students Assessed in KG: Count of all kindergarten students who were assessed for kindergarten readiness.

Percent Ready: Percentage of all assessed kindergarten students who were determined to be kindergarten ready based on assessment results.

Prekindergarten Effectiveness

This report includes kindergarten readiness data for students who attended public prekindergarten the prior year for at least 80 days at the age of four (as of September 1), and were assessed in kindergarten using one of the approved instruments on the [Commissioner’s List of Reading Instruments](#). *Data are shown for the district and campus at which the student attended prekindergarten.*

Readiness is based on the literacy assessment only and does not provide comprehensive information on student readiness across important developmental domains.

All PK Attendees Assessed in KG: Kindergarten students enrolled in the Texas public school system as of the Fall Snapshot date (the last Friday in October of each year) who were administered, at the beginning of year (BOY) administration, an assessment on the [Commissioner’s List of Reading Instruments](#) and attended prekindergarten (regardless of eligibility) at the age of four for at least 80 days.

Eligible: Prekindergarten (PK) students who met at least one of the public prekindergarten eligibility criteria the year before the kindergarten year—economically disadvantaged, English learner (EL), homeless, is or ever has been in foster care, is the child of an active duty member of the armed forces of the United States, or is the child of a member of the armed forces who was injured or killed while on active duty, is the child of a person eligible for the Star of Texas Award as a peace officer, firefighter, or emergency medical first responder.

Eligible PK Attendees Assessed in KG: Kindergarten students enrolled in the Texas public school system as of the Fall Snapshot date (the last Friday in October of each year) who were administered, at the beginning of year (BOY) administration, an assessment on the [Commissioner’s List of Reading Instruments](#), were eligible to attend public prekindergarten, and did attend.

Explanatory Notes

Due to statistical unreliability, summary data for groups of less than 10 are not shown.
 A goal mean shown with **bold italic** represents performance that might be an area of concern. A goal mean shown with **bold underline** represents an area of relatively strong performance.

Explanatory Notes

Due to statistical unreliability, summary data for groups of less than 10 are not shown.

A goal mean shown with **bold italic** represents performance that might be an area of concern. A goal mean shown with **bold underline** represents an area of relatively strong performance.

ARLINGTON CLASSICS ACADEMY -PRI

Mission

The mission of Arlington Classics Academy is to equip a diverse student body with a comprehensive education, including a special focus on Western civilization. Students will develop a commanding knowledge of the origins of our liberty and the ability to sustain it through moral leadership. We aim to accomplish this goal through a high level of academic instruction and high behavioral expectations

Vision

The vision of Arlington Classics Academy is to be an educational institution of academic excellence that provides a college preparatory, liberal arts curriculum delivered through a classical style of instruction.

Nondiscrimination Notice

ARLINGTON CLASSICS ACADEMY - PRI does not discriminate on the basis of race, color, national origin, sex, or disability in providing education services, activities, and programs, including vocational programs, in accordance with Title VI of the Civil Rights Act of 1964, as amended; Title IX of the Educational Amendments of 1972; and section 504 of the rehabilitation Act of 1973; as amended.

Campus Value Statement:

Arlington Classics Academy Primary students will learn to be respectful, responsible, safe, problem solvers through staff modeling and positive reinforcement. Staff will promote social emotional health by fostering a growth mindset in students.

ACA Board Ends Policies**Student Outcomes**

1. Students' lifelong learning skills measurably improve.
2. Students demonstrate high academic achievement.
3. Students possess and can demonstrate the skills and attributes of an effective leader.

Family Outcomes:

1. Parents are satisfied with the education of their ACA students.
2. Parents effectively function as co-educators for their ACA students with the help of a support system provided by ACA.
3. Parents are an integral part of the ACA community.
4. Parents financially support ACA.

Public Outcomes:

1. ACA publicly provides current practice and performance information.
2. ACA is perceived as an excellent school, a good neighbor, and a good citizen.
3. ACA receives financial support from sources beyond the ACA community.

For a Title 1, Part A TA program, the LEA identifies students in need of service through a description of the LEA's selection criteria, which must be multiple, educationally related, objective criteria, except that children in preschool through grade 2 shall be selected solely on the basis of such criteria as teacher judgment, interviews with parents, and developmentally appropriate measures. These developmentally appropriate measures include:

retained/did not meet passing standard for nine week grading period

below level on Reading Progress Monitoring assessment

Comprehensive Needs Assessment

Demographics

Demographics Strengths

First grade had the highest attendance rate each nine weeks

Increase in attendance between third and fourth nine weeks

Procedures for addressing families not communicating with the school regarding attendance (receptionist calls/emails families each day if no communication) are in place and consistent

97.15% attendance rate for the year, meets district goal of 97%

The percentage of male:female students is about equal

Schoolwide celebration of diversity with our "Primary Culture" Day

Demographics Weaknesses

Kindergarten had 12 students withdraw during the year

Significant drop in attendance between the first and second nine weeks

Demographics Needs

Need more motivating student incentive for attendance (attendance hero seems to have lost its effectiveness, per classroom teacher input)

Comprehensive Needs Assessment

Student Achievement

Student Achievement Strengths

91% of kindergarten Title 1 Math students met growth on end of year MAP

68% Title 1 Math students in grades K-2 met growth on end of year MAP

63% LEP students met growth on end of year MAP (goal from 18-19 was 60%)

Of the second graders seen by the Reading specialist, 82% of these students were reading on grade level by the end of the year.

Kindergarten students exceeded their expected growth on EOY Reading MAP overall

80% of second grade special education students met growth on EOY MAP Reading

80% of first grade special education students met growth on EOY MAP Math

100% of kindergarten students met growth on EOY MAP Math

Kindergarten and first grade students exceeded their projected growth in Math EOY MAP overall

61% of students receiving services in the literacy lab, met growth on EOY MAP Reading

Student Achievement Weaknesses

Students in first and second grade reading did not meet their projected growth overall

10% of second graders in special education met growth on Math EOY MAP;

40% of first grade students in special education met growth on EOY MAP Reading

71 % of kindergarten students in special education met growth on EOY MAP Reading

47% of students in intervention with the reading specialist met growth on EOY Reading MAP

28% of students met growth on second grade Math MAP

63% students in special education met growth on math MAP

Comprehensive Needs Assessment

Student Achievement Weaknesses (Continued)

64% students in special education met growth on reading MAP

Student Achievement Needs

Better understanding of process for parents and staff for referrals and testing for LD

Professional development for teachers in grades 1-2 in the areas of: Reading interventions (Tier 1 interventions), Using the MAP learning continuum, and small group guided reading strategies, and strategies for students with learning disabilities in reading and math

Comprehensive Needs Assessment

School Culture and Climate

School Culture and Climate Strengths

Martin HS counselors have a high opinion of ACA students and what they bring to Martin HS

A majority of parents on the parent survey, feel that their child is safe at school.

ACA Primary has high ratings on niche.com

ACA parent involvement policy is specific and expectations are outlined for all stakeholders.

Administration has an open door policy and the staff feel "heard"

School Culture and Climate Weaknesses

Teachers have observed negative tone between staff and students, at times, in common areas.

School Culture and Climate Needs

Staff awareness regarding appropriate communication

School Culture and Climate Summary

Offer student incentives to increase attendance at Parent U.

Comprehensive Needs Assessment

Staff Quality, Recruitment and Retention

Staff Quality, Recruitment and Retention Strengths

Mentor teachers are given to all new staff members to help acclimate teachers to ACA Primary.

T-tess allows administration and teachers to have conversations regarding continuous improvement.

Staff Quality, Recruitment and Retention Weaknesses

Staff attendance is low.

Staff Quality, Recruitment and Retention Needs

Conversation with staff on the impact that high staff absence rates have on student academic growth.

We need to increase staff attendance rates.

Develop a process for teachers to request specific trainings that they are interested in attending (based on their T-tess goals).

Staff Quality, Recruitment and Retention Summary

Staff attendance does need to be addressed in August.

Comprehensive Needs Assessment

Curriculum, Instruction and Assessment

Curriculum, Instruction and Assessment Strengths

Teachers served on the district ELAR committee and provided input for a new ELAR adoption for K-2

Teachers and interventionists work together to plan for intervention for struggling learners

Most staff feel comfortable using the learning continuum and are open to learning more about how to use the MAP test to plan for instruction

Curriculum, Instruction and Assessment Weaknesses

No built in days for staff to work on curriculum during the school year

Curriculum, Instruction and Assessment Needs

Staff training on using the learning continuum to plan for small group instruction for higher and lower achieving students.

More time throughout the year for staff to plan and adjust curriculum documents and Year at a glance

Comprehensive Needs Assessment

Family and Community Involvement

Family and Community Involvement Strengths

Parent representation on SBDM committee

High attendance at most Family engagement nights (except for Parent U.)

Most parents would recommend ACA Primary to a friend, and feel as if the Primary campus encourages them to participate in their child's learning.

Parents feel welcome and involved in their child's education and feel they know how to help their child be successful in learning

Family and Community Involvement Weaknesses

Parent U. is poorly attended

Child Nutrition concerns

Drop off and dismissal lines are not favorable to some

Family and Community Involvement Needs

Create a system for parent input regarding topics for Parent U. in order to draw more people to attend.

More relevant topics for Parent U.

Lunch program- more parent education regarding understanding the food/nutrition program and how food is chosen, etc.

Comprehensive Needs Assessment

School Context and Organization

School Context and Organization Strengths

Master schedule is designed to reflect "target" time multiple times a week for students (on non-PE days) for intervention

All Grade level teachers are ESL certified to work with LEP students

RTI meetings once per nine weeks

Consistent process for entering and exiting students for intervention services

Each special program (SCE, Title 1) has a tracking/monitoring system to look at student progress

Administration conducted individual MAP meeting with staff to gain feedback into areas of improvement (after winter MAP test)

Team leader meetings monthly include feedback from teams regarding possible problems that need to be addressed.

School Context and Organization Weaknesses

Math interventionist was not included in RTI meetings

PLC book study not complete by Campus leadership team

School Context and Organization Needs

continue PLC process

Tier 1 intervention documentation should be more specific during RTI meetings

School Culture and Climate Weaknesses

Bullying & harassment comments have increased on EOY parent & staff surveys.

School Culture and Climate Needs

-Campus wide bully/reporting procedure.

-Clear understanding of campus wide discipline/behavior expectations.

School Culture and Climate Summary

Comprehensive Needs Assessment

School Culture and Climate Summary (Continued)

- PBIS team will create & implement new "House" model by ACA 4 character traits. Students can earn points based on campus & classroom behaviors.
- PBIS, admin, & counselor will implement a campus wide reporting system to reduce bullying/harassment reports on campus.

Comprehensive Needs Assessment

Staff Quality, Recruitment and Retention

Staff Quality, Recruitment and Retention Strengths

- No vacancies for the 2019-2020 school year, as of yet
- EOY staff survey shows that all enjoy and want to be @ ACA

Staff Quality, Recruitment and Retention Weaknesses

Four new teachers for the 2018-2019 school year.

Staff Quality, Recruitment and Retention Needs

Smoother transition for new staff to acclimate to ACA Curriculum & Instructional methods.

Staff Quality, Recruitment and Retention Summary

- Utilize instructional specialists weekly to help support new & rookie staff
- Monthly "check-ins" w/ admin to help support as well

Curriculum, Instruction and Assessment

Curriculum, Instruction and Assessment Strengths

- Content teams are beginning to collaborate w/ one another more than in years past.
- Teams are utilizing common planning built into the master schedule to align curriculum, scaffold instruction, and extend.

Comprehensive Needs Assessment

Curriculum, Instruction and Assessment Strengths (Continued)

Curriculum, Instruction and Assessment Weaknesses

- Not all teams are consistently meeting face to face to plan.
- Not all team members are "carrying their load" of collaboration.

Curriculum, Instruction and Assessment Needs

- Unified expectations for common planning minutes
- Norms for common planning time
- Periodic visits by campus admin during common planning

Curriculum, Instruction and Assessment Summary

Staff are in the "first steps" of PLC's and collaboration w/ one another. Trust is still being built and we will continue to work towards a more collaborative mindset. Staff will be expected to meet weekly during common planning to align & synchronize lessons, share common planning notes w/ campus admin, and document changes on their district curriculum documents.

Family and Community Involvement

Family and Community Involvement Strengths

- Positive comments from parents, staff, & community that 2018-19 was a positive year and culture growth was made.

Comprehensive Needs Assessment

Family and Community Involvement Weaknesses

Comments on EOY survey...

- transitions from campuses are difficult
- consideration of religious beliefs in regards to field trips/parties

Family and Community Involvement Needs

Better collaboration/communication w/ other 2 campuses to stay in sync.

Discuss community/parent perceptions w/ staff.

Be mindful of diversity w/in our campus/families.

Embrace the #GriffinTribe mentality...unity.

School Context and Organization

School Context and Organization Strengths

- Staff survey reveals that teachers feel as if they have autonomy to try new things & take risks w/in their classrooms.
- Supports are in place to provide intervention for tier 3 students.
- SBDM meets monthly and has added value to this year's success on our survey's.

School Context and Organization Weaknesses

Teachers share that there is never enough time w/in master schedule.

Comprehensive Needs Assessment

School Context and Organization Needs

- Transparent conversations about the planning/creation of the master schedule. What comes first?
- Open conversations about readiness TEKS vs. supporting TEKS & CK. What must be taught?
- Open conversations about adding value to learning. Are we providing rigor and relevance?
- Aligning our curriculum documents

Technology

Technology Strengths

- Campus fundraising has allowed us to purchase technology for every teacher.
- Each grade level has a cart of chromebooks, charging stations, and a minimum of 8:1 per class (new inventory is being taken over the summer)
- Staff enjoy/want more technology

Technology Weaknesses

- Not all staff use technology for research, collaboration, or 21st century skill learning.

Comprehensive Needs Assessment

Technology Weaknesses (Continued)

- Tech Apps have not been assessed

Technology Needs

- Accurate technology inventory prior to 2019-2020 school year

Demographics

Demographics Strengths

As a charter school, enrollment is always a concern. In general, almost all seats available are filled at each grade level with wait list remaining. A growing trend is the upward movement of wait list numbers through grade levels. Kinder wait list is perceived to be smaller than historical numbers. However, exit surveys indicate that students are leaving due to the demands of the program and parents electing to remove their student with generally no complaints about the program itself. Furthermore, campus staff report that it takes an average of 30 offers to receive an acceptance due to parents do not want to move their students from one school to the next within a semester. The enrollment remains strong and growing.

Attendance continues to be strong and steady with campus efforts and focus on proper record keeping, incentives, and communicating to parents the importance of attendance by every student.

As students age in special education and remain with ACA, staff and services must be reconsidered in order to provide the needs based on the higher grade levels. The additional TEA response to the USDE IDEA audit will add more administrative need for special education. ACA has normally used consultants to add these support measures, but the growing demand of evaluations and campus support will likely necessitate additional part time or full time staff members in special education or other special programs for ACA to remain in compliance with IDEA and TEA.

A growing diversity in population at ACA will always be seen as an advantage to our community. ACA is committed to meeting the academic needs of every student. Each campus has a character program and instills valuing our differences as part of our expectations as Griffins. The greatest challenge in our diversity is the multiple languages represented in our population. It was reported through Home Language Surveys that ACA has the following languages spoken at home: Vietnamese, Arabic, Cantonese (Chinese), Spanish, Swahili, Yoruba, Korean, Amharic, Ibo/Igbo, Gaelic (Irish), Somali, and other languages. The top three languages other than English are Vietnamese, Spanish and then Arabic. Parent Universities hosted at each campus will help draw us all to one focus: student performance. It is difficult to have available resources for so many unique languages. ACA should consider a contract with an translation service that includes a majority of languages spoken in Texas including sign language.

Students labeled through special programs mostly come to us with these labels. In a review of special education, for example, we found that fewer students were identified by us and most students transferred to ACA with the existing labels. Overrepresentation, then, is not a matter of our control at this point. However, the gaining momentum through the USDE report and media coverage is likely to result in more evaluations.

We represent our area well in diversity with 76017 area code reporting 61% white to ACA's 41%, Students of Other color being 39% in the zip code and ACA being 59%. (Discussed individual subpopulations) ACA's low ses numbers are much lower than other schools.

Enrollment stability is strong.

Diversity in staff has improved.

Demographics Needs

Comprehensive Needs Assessment

Demographics Needs (Continued)

Continue to promote diversity in recruitment of both students and staff.

Train staff in cultural awareness and current needs of students.

Resources to assist families of home languages other than English, as appropriate and available. A recommended parent resource network is underway and perhaps these resources in other languages can be included there. Parent Universities are a great resources to share information with parents. Finding a way to make these sessions more accessible to parents that are not comfortable with the English language will allow them to be more inclusive. ACA has key parent resources in a shared library. Making these resources available in other languages is needed as well.

Demographics Summary

Enrollment is steady but not much more room to grow. Student turnover is fairly normal.

We represent our area well in diversity with 76017 area code reporting 61% white to ACA's 41%, Students of Other color being 39% in the zip code and ACA being 59%. (Discussed individual subpopulations) ACA's low ses numbers are much lower than other schools.

Enrollment is maintained in K-5 and still growing in 6-8

Special Education Data (PBMAS) reviewed. AA and Hispanic populations about 1% higher than the SpEd pop avg.

Stability rate is strong with mobility rate being fairly steady (EMMA tables).

Comprehensive Needs Assessment

Student Achievement

Student Achievement Strengths

Student achievement is measured by performance and progress. As an aggregate, student body performance data on both the MAP (Measure of Academic Performance) and the STAAR assessment are compared from year to year by grade level and by cohort group. These assessments monitor student progress through the grade level curriculum (or beyond).

Student achievement at ACA is evaluated with the end in mind. Therefore, the access to high school credits and student performance on assessments at the MS level are weighed more heavily. Additionally, our goals as a college preparatory school compel us to weigh the commended or “masters” rates of each performance category at each grade level as well.

Evaluating performance, ACA students continue to outperform the state average. Two areas of data are impacted greatly by our accelerated curriculum, specifically in MS. Eighth grade students that are struggling in math or science have the option to not take the HS courses and are placed in an appropriate grade level class. This places a small number of students in a critically measured course through the state assessment. Percentages are severely impacted by the small number of students taking the classes. For our purposes, a true evaluation of ACA performance would include grouping the HS course results with the 8th grade assessment results, though TEA does not do this in their reporting.

An area of focus should be the “masters” level rates of each assessment. To stay on pace with state expectations, we should see a yearly increase in these rates. Additionally, the MAP is an annual snapshot of student growth. More opportunities for data outside of the state assessment should be afforded to students, parents, and teachers so that remedies can be implemented prior to the next year based on the data.

Disaggregated data demonstrates a need in certain subpopulations that are not performing as well as peers. The utilization of MAP progress monitoring and data to drive instruction that specifically meets the needs of these students is a consideration to improve access and learning in these subpopulations.

Overall performance is strong. Over 3 years, general growth in advanced. High performance when compared to local schools, region and state.

MAP Growth strong in most grade levels.

Student Achievement Needs

There is a continued need for accelerated support instruction through interventionists and additional instructional time targeted at specific learning objectives. We noted great growth in areas where MAP data was used to plan and drive instruction. Utilizing staff that show great growth to teach other staff what they are doing differently in their classroom is a helpful way for all of us to see the options for meeting student needs. Staff development should focus on differentiated instruction, improving instructional support, and evidence based methods to improve student achievement. Significant attention should be given to ELL performance and we continue to struggle with SpEd performance. Training for refining skills of utilizing data to drive instruction and personalizing learning for students would be advantageous for ACA.

Since little funds are available in each special program, each campus will need to streamline services and work to make a concerted effort in special program services to meet the unique needs of these students. Online programs could be used to bridge gaps for students who will benefit from such services (ESL, SpEd, At Risk students). However, the value of a teacher should never be underestimated. Additional resources that can assess and target or assist teachers in assessing and targeting specific student needs are vital in order to meet the overwhelming number of unique needs from our students.

Specifically, math and reading instructional improvement efforts that monitor student progress and target specific concepts with micro-lessons, individual or group tutorials during/before/or after school, push-in assistance for students of need within the regular classroom, and/or resources that would accomplish the same ends.

The hiring of an additional interventionist at primary will help early intervention and put students back on track sooner. This will improve strategic interventions for students with special needs/subpops

Training for teachers in curriculum resources, use of technology, instructional support for students with disabilities or other struggling students; strengthening individualized learning (student centered/data driven learning)

MAP Training - how to use the data to drive instruction

Resources aligned with learning continuum

Targeted literacy instruction to support a strong K-3 literacy plan. Professional development to support.

Department of **ACA**demic Services

Janna Allen, Director of Academic Services
Jennifer Young, District Testing Coordinator

June 2019

Continue to work collaboratively with instructional staff to strengthen the curriculum design and level of rigor for the academic growth of all students.

I. **Professional Development/Teacher Workday**

ACA had two district professional development at the end of June. Various teachers from each campus attended CPR/AED and all teachers received Diabetes overview. English/Language Arts teachers attended product training for their new academic resources which will be implemented in the fall. K-5 math teachers were trained on a new resource, Think Up! Math, which focuses each math TEKS on critical thinking traits. The Nine Traits include: Collaborate, Examine, Communicate, Adapt, Reflect, Inquire, Create, Link, and Strive. Science teachers visited with a content specialist from STEMscopes to review the contents of the program, ask questions, and discussed other ways to use STEMscopes. NWEA specialist, Wendy Ihdes, was on-site to review reports, answer teacher concerns, and discuss updates for the fall.

II. **District Testing Updates:**

STAAR Testing

The second administration of 5th and 8th grade math and reading STAAR results are back and those students needing accelerated instruction are currently attending summer school at the Intermediate campus. The third and final round of 5 and 8 math/reading STAAR will be given during the last week of June. Students who passed Alg I, Eng I, and Biology courses for the year, but did not meet passing standards on the EOC exam are also attending summer school and will have a second opportunity to take the EOC exam to receive the credit for graduation requirements as they move into high school. Primary students in Kindergarten through second grade were also selected to attend the computer lab at the Intermediate for remediation with the Fast Forward program to better prepare them for the next grade level. Summer school is busy and filled with small group instruction opportunities to allow each student to obtain as much academic growth as possible before moving into the next school year.

NWEA MAP BOY vs. EOY Growth

EOY MAP testing closed without incident on May 3, 2019 with students in grades K-9 completing math and reading. In addition, grades 3-5 completed the science MAP test. A report is attached that shows each grade level BOY percentage by subject in comparison with EOY percentages. Reports went home to parents to show each student's growth this school year. Teachers and Interventionists will utilize this data over the summer to plan for next year's intervention and extension instruction for each of our Griffins. This will allow for a more Individualized Educational Plan in math and reading for all returning students.

III. **Academic Resources**

A big thank you for your trust in our decisions regarding the best academic resources to inspire and challenge our Griffins. Your generosity has allowed us to purchase needed resources for the upcoming school year. Many resources have already been received and almost all resources will be here by the end of the month.

Prior to 2016-17 Standard Level II Phase in I = Approaches

Prior to 2016-17 Standard Level II Phase in II = Meets

Prior to 2016-17 Standard Masters = Masters

Explanation of represented readiness values

Aggregated values for each tested subject are not calculated by scale score but rather by subject readiness standards coded in the data file. Due to the new standards reported within the data file for tested students, there are students that can be counted more than once within the reported values of readiness.

Example:

John Doe scored a 1732 scale score in his grade 8 reading exam which falls under the "Meets" category. In the data file he is scored as a "1" in both "Approaches" as well as "Meets".

So you will see John Doe counted once under the Approaches Category and once under the Meets Category.

Meets Grade Level in (subject) = Yes (1); Reported Academic Readiness = Meets

Total Tested (Non-Duplicate Count) This count does not count each instance per student per subject. If a student is counted as tested in a subject they are counted only once and represented in this count.

Represented Percentage Values

Represented percentage values per subject are calculated by taking the subject academic readiness value divided by the total non-duplicate total tested count.

Comprehensive Needs Assessment

School Culture and Climate

School Culture and Climate Strengths

Staff and parents describe an overall positive and student focused climate that perpetuates academic excellence. ACA uses a "net-zero" survey for parents and parents overwhelmingly answer that they will recommend ACA to others.

Students continue to feel safe and parents state that they feel their students are safe at ACA.

Survey from parent universities indicate parents appreciate information that assists them in important discussions with students (ACA MS AIM program surveys).

School Culture and Climate Weaknesses

Cultural and diversity awareness.

School Culture and Climate Needs

Areas to target based on parent surveys are effective computer literacy and technology applications instruction and a look at our foreign language vertical alignment is warranted. With the adoption of new laws and a need for bullying awareness according to recent surveys, ACA will look for improved ways for anonymous reporting, student leadership involvement in building awareness, and parent information as well on how to define bullying especially but not limited to technology's role in such areas. Staff surveys resulted in a self-evaluation of campus cohesion. Need could be described as a district-wide effort to build empathy and engagement amongst its stakeholders. Efforts should include acknowledgement of effort towards goals set, mutual respect for all necessary roles in our school, and continued effort to focus our reward system on students and staff growth mindset.

Campus culture training and efforts that strengthen teacher/parent and teacher/student relationships is key to success. A review of instructional models and time allowed for instruction as well as relationship building would be beneficial.

Continue to build relationships and train staff in special program best practices and requirements.

Comprehensive Needs Assessment

School Culture and Climate Needs (Continued)

Training for staff in cultural differences, awareness and appropriate response.

Continue team building and tearing down barriers between staff.

Vertical and horizontal alignment.

School Culture and Climate Summary

ACA is a college-preparatory school. The school climate and culture is one that supports accelerated academics with the goal of allowing students to learn at their own pace. We annually recognize volunteers and encourage volunteerism. We have a pool of volunteers which represents approximately two-thirds of our student population. We have a very active PTO which interacts seamlessly with the school functioning and enhances the quality of school experience that we enjoy. We seek input regularly from parents either through email requests or through participation on vital committee work. Stakeholders feel extremely safe on campuses and are generally satisfied with the issues of security. Campus efforts on bullying education and prevention are beneficial. No major threats exist in discipline files regarding major infractions: threat of bodily harm with a weapon. Parental participation at student events (curriculum nights, meet the teacher) is strong, though Parent University attendance diminishes throughout the year. Thoughts are that the availability of such information minimizes the feeling that parents need to attend.

ACA has implemented evidence based strategies to improve grit and perseverance through a growth mindset environment. These strategies will be integrated in the everyday routine of students, teachers, and administrators, supporting our goal to create lifelong learners.

Data Sources Reviewed: Parent surveys, staff surveys, parent volunteer applications, discipline records, other demographic data

Comprehensive Needs Assessment

Staff Quality, Recruitment and Retention

Staff Quality, Recruitment and Retention Strengths

All teachers are certified for their areas.

Teacher average years of experience is high.

Teachers have real time access to student performance data and campuses have access to overarching data as well.

Staff attendance rate is fairly high although the incentive program did not seem to work and is not recommended for next year.

Staff drive the professional development opportunities though this can be improved.

Staff Quality, Recruitment and Retention Weaknesses

Lack of central database of training attended that would strengthen our knowledge and use of those who have attended trainings.

Staff Quality, Recruitment and Retention Needs

A strong staff development plan that encourages personal growth plans along an ACA approved continuum would improve our staff quality and potentially improve our staff retention. We continue to encourage our teachers to personalize learning for the student. ACA should seek to personalize learning for the teachers affording a system that includes online learning, face to face as well as third party opportunities that align with district training needs.

Improve utilization of Centralized PD certificate system to assist in providing data to central admin when needed.

Improve use of Frontline PD opportunities including creating our own content for training.

Review the compensation schedule to see if there is any way to equitably value years of experience without bankrupting the available resources. Salary schedule will have to change to comply with HB3.

Quality of teacher is not in years of experience alone. Teachers that are willing to take calculated risks within the boundaries of our goals and expectations can create positive interruptions in our processes that could lead to student achievement. This is another reason why teacher autonomy with accountability is crucial.

Comprehensive Needs Assessment

Staff Quality, Recruitment and Retention Needs (Continued)

Improve quality of teacher by training and monitoring: specifically, regarding ACA tenets, ACA curriculum guidance documents, use of MAP and other data to drive instruction, student-centered learning, fixed vs growth mindset. Focus resources on what would ultimately give the greatest impact to student learning and accessibility. Areas of personalized learning, training teachers in learning objectives and use of data to drive instruction, educating the whole child, and even some PBL and/or PBIS training would assist in keeping students engaged and in the classrooms to learn.

A review of teacher attendance and substitute teacher supply compels ACA to consider ways to improve opportunities for dedicated substitutes as well as reward staff for being present; however, the local leave incentive program did not show any improvement this year with less than 15% of staff benefiting from the program.

Define a staff development plan that holds staff accountable to trainings attended, including ways to share these training with others.

Staff Quality, Recruitment and Retention Summary

As a charter school, ACA is not compelled to hire certified staff in all positions. However, we value Arlington Classics Academy teachers as professionals who, in general, seek out best practices that benefit their students. Historically, ACA benefits from teachers who want freedom and flexibility to teach outside of a traditional ISD. ACA requires all teachers to be appropriately certified in their assigned areas. ACA is proud to have a staff where advanced degrees are rewarded with compensation.

<p>Describe the competitiveness of teacher compensation compared to the local school district (e.g. above, below, on par): ACA reviews area school districts/charters within a reasonable driving distance as well as districts of similar size and scope. Beginning teacher pay for these districts range from \$39,000 to \$54,500. In comparison, ACA raised beginning teacher pay to \$47,500 in the fall of 2018. Although ACA pay scales are somewhat lower than some area schools, ACA continues to make higher contributions to insurance benefits when compared to Arlington ISD, for example, by about \$1400 per teacher per year which increases the overall compensation package of Arlington Classics Academy teachers. With recent legislative action and expected revenue boosts, ACA expects to increase teacher compensation by 2 to 3%.</p>

Curriculum, Instruction and Assessment

Curriculum, Instruction and Assessment Strengths

Curriculum guidance documents have been created and reviewed.

These are live documents being changed as needed.

MAP data and other performance data is considered as part of the review of the curriculum guidance.

Student performance is strong.

Curriculum, Instruction and Assessment Weaknesses

SEL/Executive function guidance documents need to be grade specific and explicit for teachers, parents and students.

Study skillsets missing in places.

Curriculum, Instruction and Assessment Needs

Staff development needs to focus on the tenets of ACA which include individualized education (differentiation), acceleration as well as remediation strategies, guided groups, growth mindsets and brain-based research that fuels strong learning. We have seen success with math and reading small groups, micro-lessons, station based learning, and data driven instructional planning. As teachers grow in these areas, we need to consider how to multiply what is right (results proven) and minimize what distracts us from these efforts. Allowing teachers to observe each other and make recommendations, meet to discuss instructional planning and strategies that work, and following through with curriculum guidance documents that include these resources will help solidify ACA's ability to meet the needs of our students. Additionally, providing for online and blended staff

development opportunities through a collaborative platform would assist ACA in maximizing staff development dollars.

SEL/Executive function is a growing discussion point as students move through an accelerated system, we need to explicitly teach and support teachers in the pedagogy of SEL/Executive Function instruction through guidance documents.

With the ever changing landscape of technology and the use of technology for learning, staff demonstrate a need for continued training in technology in the classroom.

Curriculum, Instruction and Assessment Summary

Arlington Classics Academy values, first and foremost, the ability of the teacher to organize and lead the instruction within the classroom. Therefore, we seek to support and encourage use of instructional resources that align our goals of accelerated instruction and college readiness to classroom instruction. ACA also values informed parents making educational decisions for their children and seeks to provide access to the curriculum and instructional materials on various platforms.

ACA is founded on the principles of classical education and is considered a friend of Core Knowledge (E.D. Hirsch, Jr.). As a public school, ACA is committed to teaching the state curriculum, the Texas Essential Knowledge & Skills. However, students receive much more than the minimum state curriculum. By emphasizing the three stages of the trivium and utilizing Core Knowledge, students gain a surplus of background knowledge that will extend and enrich their high school and college experience.

The ever-changing state accountability system and rollout of new TEKS in certain content will present a challenge to ACA as it has the state. It is going to take all stakeholders working together to navigate the new systems. ESSA has changed many of these processes as well. ACA's accelerated pace and the state's new standards must be reconciled with our fidelity to classical education and Core Knowledge. ACA will be impacted by the changes made at the state level and it will take time to reconcile these systems.

The implementation plan for overcoming the change in any TEKS can be summarized in three phases: 1) Adopt and implement TEKS aligned curriculum 2) once teachers are acclimated to the new TEKS and the new resource, plan and implement strategies to accelerate or advance students in the curriculum, identify and fill gaps and 3) review student performance on state assessment and norm-referenced assessments to identify gaps and correct instructional plan to fill those gaps (subsequent years).

ACA uses a standardized teacher evaluation system that is built on concepts of continuous improvement. Curriculum and instructional plans evolve as data is collected and evaluated throughout the school year. Professional Learning Communities, departmentalized staff, and grade level meetings are held to review data points and discuss needed changes. By promoting action at the teacher level, the level most closely involved with the students, we can affect change in response to the needs of the learner more quickly. ACA conducted a review of curriculum guidance documents in 2016-17 and funded a major re-write to ensure fidelity to our promise of serving all students based on their needs. The curriculum guidance review and re-write is still ongoing in core content areas. The next phase will be foreign language and art. This will help align the TEKS and Core

Knowledge learning objectives for teachers. ELA TEKS have been revised and will go into effect for K-8 in the 19-20 school year.

Family and Community Involvement

Family and Community Involvement Strengths

Parent engagements activities like parent universities, curriculum nights and specialized content nights have overall strong attendance.

Parent input is sought via surveys and remind responses as well as parent seats on advisory committees, etc.

Common other languages for ACA are spanish, vietnamese, and

Family and Community Involvement Weaknesses

Availability of interpreters is a challenge.

Parent involvement in advisory committees is limited and could be improved even at the campus levels.

Family and Community Involvement Needs

We need readily available documents in the top three common languages.

School Context and Organization

School Context and Organization Strengths

ACA has a long history of results despite the changing paradigm of our educational environment and a growing local competitive force. While we are consistently looking for new ways to challenge and strengthen our students' opportunity for learning, we value the autonomy of the teacher, within provided guidelines, to create an environment where students can accomplish the learning objectives presented. ACA families benefit from average to low-average student to teacher ratios. Schedules are reviewed for time in struggling areas, especially in lower grades. Perceptions of the school are strong in parents, staff and the general community. Parent involvement and volunteerism is high.

School Context and Organization Weaknesses

Traffic causes unnecessary stress on our relationships with neighbors and the city.

Community reports we have some of the "rudest parents" they have ever dealt with.

Special program evaluations seem to change. We need a multi-party look at what's important and create a plan to evaluate the same way over at least three years.

School Context and Organization Needs

Intermediate and Primary currently share a counselor. ACA should consider allocating resources when available to improve access to two FTE's as the role of counselor is critical in the character education of our students.

ACA should annually review the structure or model of instruction at each grade level and evaluate it based on student performance. Noting that relationships are a key part of building an environment for learning, ACA should review and invest in staff development or school culture programs to mitigate relationship barriers that can be found outside of the self-contained model. Improve parent/city relationships and communicate the need to support our communities as well as understand our parents. Special program evaluations are limited in scope and need to be standardized.

Arlington Classics Supervision Structure:

Central Admin – ACA operates a central administration office where the bulk of systems operations is conducted. The Board of Directors employs the Executive Director of Schools (EDS) who then organizes and employs the functions and operations of each office. Currently, ACA employs three directors and three principals that report directly to the EDS. The three directors are considered central administration staff and oversee Human Resources and Student Services, Academic Services, and Business & Operations. The purpose of the central administration team is to accomplish the ends policies of the Board by streamlining processes and procedures to allow campuses to focus on the most important function of student and staff learning.

Campuses – Each ACA campus is operated by the campus principal with the support of their staff and leadership team. Each campus principal employs an assistant principal, counselor, and relevant staff to conduct the daily operations of the school and to achieve the goals set by the Board while staying compliant with all applicable laws and regulations. Each campus is authorized to select a leadership team in the form of assigning team, grade level, or content based leaders. Each principal will also ensure that each campus has a stakeholder input committee otherwise known as a site based decision making committee to provide input and insight into data that will assist in establishing goals for improvement and monitor that improvement each year.

School Structure – Each ACA campus is operated by the campus principal with stakeholder input into the best operational method of empowering student growth in learning. ACA currently operates accordingly:

Technology

Technology Strengths

Overall, students demonstrate high proficiency for technology (8th grade learning.com assessment).

Comprehensive Needs Assessment

Technology Strengths (Continued)

We are at large at a 1:2 tech ratio with some programs even being 1:1 depending on program or grade level.

Network design is strong though internet service has had some complications outside of ACA's control.

Technology Weaknesses

Technology instruction and integration needs to be aligned K-8. (learning.com perhaps)

Tech items are nearing the end of their life cycle. Is there a plan to re-stock?

There are so many curriculum and assessment resources that require uploads.

Technology Needs

We need a technology teacher or para at Intermediate to support tech integration and instruction.

WE need a plan to support teachers using technology and increase everyone's working knowledge of google and google products for productivity.

We need a replacement plan for devices that are beginning to near the end of their life.

Comprehensive Needs Assessment

Technology Summary

Arlington Classics Academy is committed to increasing the presence of technology on each campus as a tool for learning. Campus principals support the use of technology across the curriculum. Additional funds are needed to progress through the technology plan and to lower the student to device ratio. An accurate ratio would be a student use ratio. Current student to device ratio for use is 1:3, though in some programs it is as low as 1:1 and 1:2. With the age of some of the technology available (ipads, ipods, etc), ACA will need to replace aging equipment that is currently in use for students and allow funds for replacement.

Following the technology plan, we are on pace for lowering the student to technology ratio and adding needed support along the continuum. ACA continues to employ an administrative coordinator position to represent ACA's interest in technology as well as campus level support by current personnel earning stipends for their services. Evaluation of effective use of technology, and therefore designating the correlating metrics, was completed this year with a culminating 8th grade assessment. Campuses will use the results of the assessment and coordinating survey to address in campus improvement.
